Bengaluru: The upcoming placement season may be muted compared to last year's recruitment drive, but engineering graduates still have reason to cheer. Startups across sectors are heading to the Indian Institutes of Technology and other engineering colleges to pick the best and brightest of talent.

Up for grabs are the roles of data analyst, AI engineer, user-experience engineer, mobile software developer and augmented reality engineer, with annual starting salaries

1 Cos like Paytm, Exotel, Pepperfry, Voonik, Go-Jek and Razorpay looking to ramp up tech teams

2 Data analyst, AI engineer, user-experience engineer, mobile software developer in demand

3 Hiring also for roles in machine learning, front-end and back-end development, and data science

4 Salaries On Offer: ₹9-16 LAKH & upwards

ranging from Rs 9 lakh to Rs 16 lakh.

Paytm, Exotel, Pepperfry, Voonik, Go-Jek and Razorpay are looking to cherry-pick talent from among 10,000-plus students graduating in 2018 from the IITs and thousands more from other engineering colleges. New-age companies are focusing on expanding their technology teams and roles in data science and machine learning are commanding premium salaries.

Recruiters Flooded with Telecom CVs

Recruiters have noted a 35-40% on-year increase in resumes from telecom sector employees who want to exit the industry urgently, report **Devina Sengupta & Sreeradha D Basu.**
