REVIEWED INSTITUTIONS (ACCREDITED/IN THE TOP 1 OR 2 QUARTILES)*

Indian Institute of Information Technology, Kota
Maharishi Arvind Institute of Engineering and Technology, Jaipur

PROF. PRASHANT SHARMA,
Principal, SS College of
Engineering, Udaipur

An academic institute should have collaboration with industry. The academia-industry tie-up should be there necessarily. If tie-ups are not there with the industries, there is no point of imparting theoretical skills to a student because we are not teaching the students about the requirements of the industry. The industry people should also come forward to increase the number of academia-industry tie-ups.
