

Rajasthan launches new higher education model

SPECIAL CORRESPONDENT
JAIPUR

A new higher education model has been launched in Rajasthan for distribution of faculties and movable assets among the government colleges at the district level to rationalise the availability of resources. The model will create a pool for sharing of facilities which will benefit the colleges lacking infrastructure.

Minister of State for Higher Education Bhanwar Singh Bhati inaugurated the model, titled Resource Assistance for Colleges with Excellence, in the presence of principals of colleges here recently. He said all the

colleges would get equal opportunities for imparting quality education with the adoption of the new model.

The colleges in need will submit their requirement to the nodal college in the district, which will send the teachers on deputation, if needed, and provide the facilities such as projectors, digital libraries, equipment and technicians. The model will help the colleges situated in small towns facing shortage of faculties and infrastructure. Though the sanctioned posts of teachers in the government colleges are 6,500, the State at present falls short by about 2,000 teachers.
