

North-West Zone- Rajasthan

class infrastructure. It has emerged as an institution of eminence and repute, empowering women through education and character building and is justly proud of producing future women leaders of the nation. There are six colleges in the University, namely : College of Arts, Science and Humanities (CASH), College of Architecture and Design (CAD), College of Engineering and Technology (CET), College of Fashion Design and Merchandising (CFDM), College of Law and Governance (CLG), College of Business Management, Economics and Commerce (COBMEC).

Mody University is a Private State University, recognized by various regulatory bodies like AICTE, NBA, BCI and COA and boasts of a number of international accreditations and collaborations. The student to teacher ratio of 12:1 is one of the best among all the private universities of India. It has 100% power backup and is fully Wi-Fi enabled. The University has smart class rooms, 48 hi-tech laboratories, libraries containing over 70,000 books, air conditioned hostels with all modern amenities and a magnificent dining hall offering nutritious vegetarian cuisine. Olympic standard sports facilities include tennis, basketball, volleyball and horse riding.

In the year 2011, **JK Lakshmipat University** was founded in Jaipur with the objective and commitment to create industry ready professionals where students are given the cutting-edge of holistic learning which is globally relevant and they develop into future-ready with actionable intelligence. The focus therefore is to inculcate learning through understanding, knowledge enhancement, skill development, positive attitude formation and most importantly encourage research and innovative thinking.

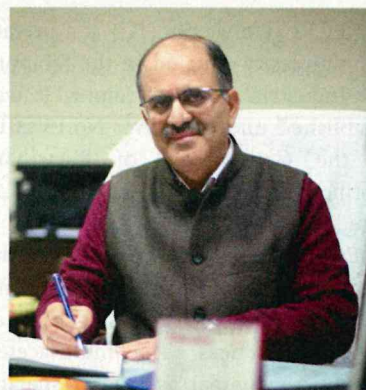

The students are nurtured amidst excellent infrastructure, mentored by experienced, young and dynamic faculty backed by a strong focus on placements. Seminars, conferences and interactions are encouraged to provide exposure to the students about global trends in various fields of technology. The curriculum at JKLU provides for high weightage on internship to develop employable professionals with the co-operation of business and industry. With a focus on achieving this objective the University offers two well-structured industrial training programmes where B. Tech students undergo internships namely- Practice School – I (PS-1), which helps in understanding the working of corporate world and Practice School – II (PS-2), where the students get an opportunity to work on live projects of corporate world in various fields. This initiative has enabled the University to provide a well-designed placement strategy for its students and has gained wide acceptance among the top recruiters.

JKLU continues to encourage a value based innovative learning environment that engages deep intellectual, spiritual and moral stimulation to promote holistic personality development for nurturing leadership.

S D Gupta
President,
IIHMR University

"We take pride in creating a critical mass of young professional managers in the health sector and transforming management of health systems and hospitals in the country."

Dr. R.L. Raina
Vice Chancellor,
JK Lakshmipat University

"JKLU has within a short span of just over four years made its presence felt in so far as its contribution to management and engineering education is concerned and it is now recognized as one of the most sought after destinations to pursue higher education among young and bright minds of not only Rajasthan but adjoining states, as well."
