

Engineering books to be available in Hindi soon

DNA Correspondent @jaipurdna

From the next academic session, engineering students would be able to study the courses using books in Hindi syllabus books of engineering and diploma courses would also be available in Hindi medium. The All India Council for Technical Education (AICTE) has given approval to Hindi books for engineering and diploma courses.

Higher Education and Technical Education minister Kiran Maheshwari told that the Rajasthan Technical Education Directorate had sent some special suggestions to the AICTE.

Allowing books in Hindi language along with English medium books for engineering courses was one of the special suggestions. AICTE accepted the suggestion immediately and allowed providing Hindi books for the courses from next academic session.

Maheshwari said that this would not only promote national language Hindi but would also benefit rural area students directly. She said that this step would be an innovative practice in technical sector and would prove to be a milestone. She also said that AICTE would also publish a national level journal in Hindi which would make available

FROM NEXT ACADEMIC SESSION

Higher Education and Technical Education minister Kiran Maheshwari told that the Rajasthan Technical Education Directorate had sent some special suggestions to the AICTE. Allowing books in Hindi language along with English medium books for engineering courses was one of them. AICTE accepted the suggestion immediately and allowed Hindi medium books for the courses from next academic session.

write ups by international writers in Hindi language. Best write ups would be selected and writers would also be awarded. AICTE has also prepared a scheme to promote writers who write technical books in Hindi language.

Till now, engineering syllabus books were available in English medium only. Due to rural background and schooling from Hindi medium, students in Rajasthan faced difficulty in pursuing the courses with English medium books. Sensing students' problems, Maheshwari had prepared the proposal which was accepted by the AICTE.
