7 JKLU students selected for next Semester at IIT

JK Lakshmipat University

Seven B Tech students from JK Lakshmipat University (JKLU) Jaipur, have been selected to pursue the next semester of their undergraduate programme at IIT Gandhinagar. JKLU is providing the students an opportunity to spend a semester and take unique courses IIT offers, against academic credits at JKLU. Prof Sanjay Goel, Director Institute of Engineering and Technology, JKLU, mentioned, "This will be a great experience for them all and more students will benefit from this model in future. We congratulate and wish them great success at IIT Gandhinagar and beyond".

Honouring its commitment of providing quality future-ready education to students, JKLU has upgraded its engineering education by collaborating with Olin College of Engineering, USA to incorporate project-based learning in the BTech curriculum. It has also collaborated with the University of Florida, USA and University of Massachusetts, Amherst, USA for academic and research interchange.

Prof R L Raina, Vice Chancellor said "Through an amalgamation of technology, management and design, JKLU is bringing the best contemporary practices, partnerships and technologies to help transform students into successful professionals of tomorrow". This is reflected in their recent placements, where the highest salary package for undergraduates has seen a significant jump to Rs 15 Lakhs per annum. The University is admitting students to its contemporary B Tech, BBA, B Des and the Pinnacle MBA programs along with Masters in Public Policy launched in collaboration with U Mass Amherst whose details are available on its website jkl.edu.in.
