Chitkara University, Patiala	1.42	29.93	3.74	115.10	0.73	150.92

DR. R.K. PANDEY

Vice Chancellor, IMS Unison University

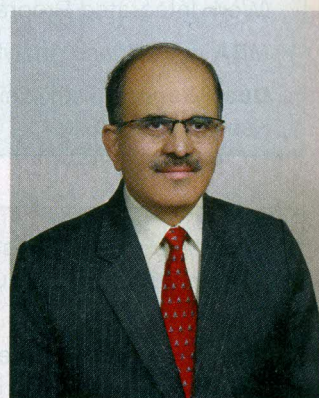

We seek to educate individuals with the highest potential to excel in their chosen careers and become responsible global citizens. To achieve this, we aim to give the student the best experience possible and we continually invest in new and existing facilities, training, technology and services

DR. MAHAVIR SINGH

Vice Chancellor, IEC University

India's higher education system can become more robust through foreign collaboration in research areas. India can also make a mark in the area of high quality research publication by strengthening activities in Research and Development. Universities face challenges in creation of world-class research labs due to financial constraints

DR. R.L. RAINA,

Vice Chancellor, J.K. Lakshmi Pat University

To have academics of standard and quality any country must have regulatory framework, but the way I perceive, it is too much mechanical and on the tougher side. So, if we have some flexibility in our approach and address the issues and concerns of education, especially at the higher education level, we would be better off
