JAIPUR: The Rajasthan government has released the draft of Startup and Innovation Policy-2019 under Rajasthan Innovation Vision (Rajiv).

In the draft policy, special assistance will be provided to connect the resident of Rajasthan with employment through startup and special encouragement will be given to such entrepreneurs in a special effort to bring the startup established outside the state by the entrepreneurs of the state.

A release from the department states that this policy will work under the iStart single window policy to promote startups in the state under 'One Stop Shop' policy, where all kinds of facilities and redressal of grievances to startup entrepreneurs are possible on a single platform.

Under this, the focus will be connecting more and more youth to startups, increasing

academic numbers, and partnerships and collaboration will be encouraged.

The startup will promote urban entrepreneurship as well as startups of rural entrepreneurs from all districts, and for this a special scheme will be made.

The state government has launched the Rajasthan Innovation Vision (Rajiv) to inspire the youth of Rajasthan, and how it can benefit the society through startups and innovations in accordance with new era, demands and global environment.

This policy will prove to be a milestone in this direction. This draft policy will prove to be a facilitator for the improvement of the eco system in Rajasthan through both hard and soft infrastructure.

"The objective of this policy is to encourage entrepreneurship in every sector, as well as to develop iStart as a one stop platform in the state," states the release.
